BLACK GIRAFFE ON THE SIDE

Burleigh Brewing's 'Bit On The Side' department has been busy of late, working on a unique black coffee lager that is due to hit shelves in limited quantities this month. Black Giraffe is the result of a collaboration between Burleigh Brewing and Zarraffa Coffee that saw the brewer combine 100 kilos of 100 per cent rainforest alliance coffee beans to create a locally-produced rich and flavoursome black coffee lager. Black Giraffe is packaged in dinner-size 650ml screen-printed collectible bottles which are as unique as the brew itself. This is the second release in the Burleigh Brewing's 'Bit On The Side' range, following the launch of My Wife's Bitter earlier this year.
